

## FlexiGo Kettle

# Boil Safe, Travel Smart

The safest way to boil water on the move. A revolutionary portable kettle engineered for the modern traveler who refuses to compromise on safety, convenience, or hygiene.

Product Development Proposal | Innovation Team | 2026

Made with GAMMA

# The Traveler's Dilemma: A Global Need for Safe Hot Water

## Untrustworthy Hotel Appliances

Hotel kettles are often unclean, poorly maintained, and raise serious hygiene concerns for health-conscious travelers.

## Inconvenient Public Facilities

Public hot water access is unreliable, inconvenient, or simply unavailable in most travel destinations worldwide.

### Millions Affected

Global travelers lack access to hygienic, reliable boiling solutions when they need them most

### Market Gap

A significant opportunity exists for a portable, safe, and trustworthy hot water solution

### Growing Demand

Post-pandemic hygiene awareness has intensified consumer demand for personal travel appliances

# Introducing FlexiGo Kettle

## Safety and Portability Redefined

The FlexiGo Kettle is an intelligently engineered, collapsible travel kettle that provides users with instant access to clean, hot water anywhere in the world. We've built it from the ground up with one core principle: **no compromises on safety**.

### Collapsible & Ultra-Portable

Collapses to fit in any carry-on bag, expanding only when you need it. Travel light without sacrificing functionality.

### Unmatched Safety Features

Advanced Triple Safety System engineered to prevent accidents, leaks, and electrical hazards worldwide.

Made with GAMMA

# A Solution for the Modern, Mobile Consumer

## Global Frequent Flyers

Business professionals and international tourists who value convenience, reliability, and premium travel accessories. They prioritize time-saving solutions that work seamlessly across borders.

## Modern Families

Parents traveling with infants who need safe, sterile hot water for formula preparation. They refuse to compromise on their child's health and safety while on the move.

## Outdoor Adventurers

Campers, backpackers, and van-lifers requiring portable, off-grid solutions for hot beverages and meals. They need durability and reliability in unpredictable environments.

## Health & Eco Advocates

Environmentally conscious consumers reducing single-use plastic waste and prioritizing products with safety certifications. They're willing to invest in sustainable, well-engineered solutions.

**Key Insight:** This audience values well-being, sustainability, and smart technology — and they are willing to invest in products that align with their values. The global portable appliance market is projected to grow at 8.2% CAGR through 2030.

Made with GAMMA

# Engineered for Peace of Mind

## Advanced Triple Safety System

### Auto Shut-Off & Boil-Dry Protection

Intelligent sensors prevent overheating and fire risks by automatically powering down when water boils or runs dry.

**Benefit:** Complete safety assurance — even if you forget about it.

### Lock-Seal Lid Mechanism

Proprietary sealing technology creates a 100% leak-proof barrier during transport and storage.

**Benefit:** Mess-free packing — throw it in your bag with confidence.

### Voltage Intelligence & Surge Guard

Adaptive circuitry works safely with 110-240V worldwide, with built-in surge protection against power fluctuations.

**Benefit:** Global reliability — one kettle for every destination.

### Rapid Boil Technology

Hot water in under 4 minutes

**Ultimate Convenience:** No more waiting around — get your coffee, tea, or instant meal ready fast.

### Food-Grade Silicone

BPA-Free and odor-resistant materials

**Health & Hygiene:** Safe for drinking water, baby formula, and food preparation on the go.

# Launching FlexiGo to Our Core Audience

## Strategic Go-to-Market Approach

01

### Phase 1: Direct-to-Consumer Launch

Launch on our company website and major online marketplaces including Amazon, specialty travel gear sites, and outdoor adventure platforms. Build brand awareness and gather customer feedback.

02

### Phase 2: Retail Distribution

Partner with travel specialty stores, airport retailers, and premium luggage shops. Establish presence in REI, Container Store, and international travel hub locations.

03

### Digital Marketing Blitz

Targeted advertising on travel platforms (TripAdvisor, Lonely Planet, travel blogs), social media campaigns showcasing safety and convenience, and SEO-driven content around "travel safety" and "sustainable travel."

04

### Influencer Partnerships

Collaborate with family travel bloggers, digital nomad influencers, and outdoor adventure content creators. Leverage authentic testimonials and user-generated content to build trust.

### E-Commerce Focus

Primary channel for launch with global reach and direct customer relationships

### Strategic Retail

High-traffic travel locations for impulse purchases and brand visibility

### Digital Presence

Content-driven strategy targeting safety-conscious and eco-aware travelers

# Path to Launch: Ready to Execute

Q1 2026

**Design & Engineering**

- Finalize industrial design
- Complete safety testing
- Secure manufacturing partners
- Obtain certifications (CE, FCC, RoHS)

1

Q2 2026

**Production Preparation**

- Begin production run
- Finalize packaging design
- Develop marketing materials
- Build e-commerce platform

2

Q3 2026

**Soft Launch**

- Launch via DTC channels
- Initiate digital marketing campaign
- Begin influencer partnerships
- Gather customer feedback

3

Q4 2026

**Full Commercial Launch**

- Retail distribution rollout
- Scale marketing efforts
- Expand to international markets
- Establish market leadership

4

## Investment & Approval Request

We seek approval to move into the prototyping phase and allocate resources to bring the FlexiGo Kettle to market. This represents a strategic opportunity to capture a leadership position in the rapidly growing portable appliance category.

**With your support, we can deliver a product that sets new industry standards for safety, convenience, and sustainability.**
